

Sprint08 - Testing Documentation

Tester: Rachel Shindelus

03/21/2026

Test Case: SYS-27/Schedule-Reminder-Frontend

Github Code Author for This Branch: racheyShindelus

Before Launching:

Create Backend .env:

```
# Server Configuration
PORT=3001
FRONTEND_URL=http://localhost:3000

# reCAPTCHA
RECAPTCHA_SECRET_KEY=6LcZ0QwsAAAAAEo_yk4A5NSlJZpvh6ictaPhktNA

# Supabase
SUPABASE_URL=https://cnzlgtpnlxkvzurmpjsu.supabase.co
SUPABASE_ANON_KEY=sb_publishable_bSluMKWKiRjtflRQrcJSiA_dMhNUjni

# Google OAuth
GOOGLE_CLIENT_ID=916103566644-nrbisqrvc10ff59mlr4bcb8jlilampul.apps.googleusercontent.com
GOOGLE_CLIENT_SECRET=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
GOOGLE_REDIRECT_URI=http://localhost:3001/auth/google/callback
GOOGLE_SCOPES=openid email profile
https://www.googleapis.com/auth/calendar.readonly
https://www.googleapis.com/auth/contacts.readonly
https://www.googleapis.com/auth/gmail.send
```

Create Frontend .env.local:

```
# Frontend Environment Variables

# Backend NestJS API base URL
BACKEND_URL=http://localhost:3001

# URL the Next.js app runs on
NEXT_PUBLIC_APP_URL=http://localhost:3000

# reCAPTCHA Site Key
NEXT_PUBLIC_RECAPTCHA_SITE_KEY=6LcZ0QwsAAAAAJ3Bhrh0Yv140BqyU5sdihlPFYgR
```

How to Run:

BACKEND

```
1] cd backend
2] npm install
3] npm install googleapis nodemailer
4] npm run start:dev
Backend is running on http://localhost:3001
```

FRONTEND

```
1] cd frontend
2] npm install
3] npm run dev
Frontend is running on http://localhost:3000
```

Goals / Description

Send follow up reminders to the user. Allow for the reminders to be able to be marked completed. Allows for multiple reminders at once. If there are no reminder, do not show the reminder banner at all.

Dashboard Showing Reminders at the Top:

The screenshot shows a web application dashboard running on localhost:3000. The dashboard has a sidebar on the left with navigation links: Headword!, Dashboard (selected), Analytics, Projects, Contacts, Vendors, and Invoices. The main content area features a search bar at the top, followed by a 'Due reminders (2)' section. This section contains two identical reminder cards, each with a 'Mark complete' button. Below the reminders are four summary cards: 'Active Contacts' (30, up 5% vs last week), 'Pending Invoices' (67,670, down 5% vs last week), 'Active Projects', and 'Productivity'. On the right side, there is a 'Manage Projects' table with columns for Name, Task, Due on, Price, and Status. The table lists two contacts: 'Contact #22' and 'Contact #21'. A user role management panel is visible in the top right corner, showing 'DEV: Test User Roles' and 'Current: User' with buttons for 'Administrator', 'Manager', and 'User'.

Name	Task	Due on	Price	Status
Contact #22	blah blah #1	Dec 31	\$67	High
Contact #21	blah blah #2	Nov 3	\$512	Medium

Selecting 'Mark complete'

Due reminders (2)

Follow up with client about proposal
Check if they reviewed the proposal
Due: 3/10/2026, 11:00:00 AM

Mark complete

Follow up with client about proposal
Check if they reviewed the proposal
Due: 3/10/2026, 11:00:00 AM

Mark complete

Reminder is marked completed and is removed from the dashboard. 1 reminder remaining.

Due reminders (1)

Follow up with client about proposal
Check if they reviewed the proposal
Due: 3/10/2026, 11:00:00 AM

Mark complete

Upon marking the last reminder as complete, no more reminders are available for the user and, thus, none are shown on the dashboard.

The screenshot displays the Headword! dashboard interface. On the left is a sidebar with navigation links: Dashboard (selected), Analytics, Projects, Contacts, Vendors, and Invoices. The main content area features several summary cards: 'Active Contacts' (30, +5% vs last week), 'Pending Invoices' (67,670, -5% vs last week), 'Active Projects' (67), and 'Productivity' (? , +25% vs last week). A 'Manage Projects' table lists three contacts with their tasks, due dates, and budgets. A user role management panel on the right shows the current user as 'User' with roles 'Administrator', 'Manager', and 'User' (selected). At the bottom, there are sections for 'Upcoming Tasks' (Send Campaign debrief on Oct 3) and 'Statistics'.

Name	Task	Due on	Budget	Priority
Contact #22	blah blah #1	Dec 31	\$67	High
Contact #21	blah blah #2	Nov 3	\$512	Medium
Contact #3	blah blah #3	Dec 31	\$283	Low

PowerShell Creating a Reminder:

```
PS C:\Users\rache> cd "C:\Users\rache\Downloads\CSC191\sprint07\TESTING\csc-190-191-systemy\backend"
PS C:\Users\rache\Downloads\CSC191\sprint07\TESTING\csc-190-191-systemy\backend> $body = @{
>>   client_id = "15be0774-3980-4b90-8137-3fae31fc3a63"
>>   title = "🚧 Dashboard Test Reminder"
>>   description = "This should appear in the dashboard banner"
>>   remind_at = (Get-Date).AddMinutes(-2).ToString("o") # 2 minutes ago = already due
>>   timezone = "America/Los_Angeles"
>>   sync_to_google = $false
>> } | ConvertTo-Json
PS C:\Users\rache\Downloads\CSC191\sprint07\TESTING\csc-190-191-systemy\backend>
PS C:\Users\rache\Downloads\CSC191\sprint07\TESTING\csc-190-191-systemy\backend> Invoke-RestMethod `
>>   -Uri "http://localhost:3001/reminders" `
>>   -Method Post `
>>   -Body $body `
>>   -ContentType "application/json"
```

Returned:

```
